

DECLARATION OF INTENT IN VIEW OF ESTABLISHING THAILAND'S PRIVATE SECTOR COLLECTIVE ACTION COALITION AGAINST CORRUPTION

The Opinion Survey of Private Sector Leaders on Anti-Corruption Collective Action in Thailand, developed by the Thai Institute of Directors, and jointly conducted with the Thai Chamber of Commerce, the Joint Foreign Chambers of Commerce in Thailand, the Thai Listed Companies Association, the Thai Bankers Association, The Federation of Thai Capital Market Organizations, the Federation of Thai Industries and Tourism Council of Thailand, made clear once again that corruption in all its forms is a major handicap for the country's development.

The Survey also revealed a growing commitment and willingness by the private sector to contribute to the elimination of corruption by strengthening ethical behavior in all business activities.

In order to reach that goal, participants to the initiative described in this document declare their intent to enter a process of Collective Action by the private sector with the objective to create a Coalition Against Corruption, that will work in cooperation with Government, civil society, media, and international organizations to foster cleaner business practices.

Based on the framework set by the United Nations Global Compact's 10th Principle Againsts Corruption, on the Business Principles for Countering Bribery established by Transparency International, as well as the work done by the World Bank, the Center for International Private Enterprise and other international organizations and initiatives, the participants to this Thai private sector initiative agree to work together in steps.

The Coalition will seek to involve all public and private sector partners, the oversight agencies and all parts of the Thai society to form a community to be concerned with shared processes involving their common interests, experiences and wishes, with a view toward improving the country's competitive advantages and achieving higher levels of development, toward which end long-term goals have been established that will make it possible to decrease currently existing levels of corruption.

This Coalition intends to fully support and participate to the Nation Anti-Corruption Strategy devised and implemented by the National Anti-Corruption Commission and the Government. We realize that individual and collective commitment from businesses to level the playing field and to build integrity in the business environment is required to ensure the full success of that strategy.
